

Rear Facing Top Support Cradle for Zebra MC3300

Part #241468

\$179.99

This non-charging cradle is designed to keep the MC3300 series mobile computer secured with the screen facing away from the operator.

The included swiveling top support slides over the end of the MC33 handheld to ensure it stays in the cradle even in high vibration environments like in a forklift.

This holder features the AMPS hole pattern which is commonly used for mounting in vehicles. This is compatible with mounts from both ProClip and other providers of ball, forklift, bar, pipe and cart mounts.

Features

- Custom fit to bare device
- Designed to keep the screen away from the operator when docked.
- Accommodates standard and gun models
- Top support keeps the device in place during intense vibrations
- AMPS hole pattern for attachment to any mount

Compatibility

- Zebra MC3300
