

16.5" to 22" Heavy-Duty Telescoping Mount

Part #241717

\$194.99

The Heavy Duty Telescoping Mount is a robust and versatile solution for securely mounting heavy devices and equipment. It has the standardized AMPS hole patterns for easy attachment to most device cradles, holders and flat surfaces.

Superior Construction - Constructed from durable steel and aluminum, this mount includes small interlocking teeth that provide maximum device stability.

Adjustable Height - It features a telescoping design, adjustable from 16.5 in. (420 mm) to 22 in. (560 mm), allowing for customizable height to suit your needs.

Perfect Angles - A single wingnut allows you to easily adjust your device into 16 different locking positions, while the round AMPS base plate with screw slots enables you to rotate the device when attaching it to flat surfaces.
